

AUTOMATED EXPORT SYSTEM (AES)

THE AES is required for shipments valued at more than \$2,500, or under an export license, from the United States to all foreign destinations, including Puerto Rico and the U.S. Virgin Islands.

The shipper's export declaration can be accessed online at <https://ace.cbp.dhs.gov> and is a **dual purpose** document used for:

1. Compiling official U.S. **export statistics**, and
2. Administering the **export controls** of the U.S. Government

AES is also required to be filed for shipments:

<u>From:</u>	<u>To:</u>
The United States	Puerto Rico
The United States	U.S. Virgin Islands
Puerto Rico	United States
Puerto Rico	U.S. Virgin Islands

AES is **not** required for shipments:

<u>From:</u>	<u>To:</u>
The United States	U.S. Territories (except the U.S. Virgin Islands)
U.S. Territories	The United States
Puerto Rico	U.S. possessions (except the U.S. Virgin Islands)
U.S. Territories	Puerto Rico
U.S. Territories	U.S. Territories

Once logged in to AES, and the AES form filled out and accepted, it will provide you with an International Trade Number (TIN). Remember to have the Schedule B/HTS Export Code available.

What is a Schedule B (export) number?

The Schedule B is a 10 digit international export code for exporting goods out of the United States (U.S).

The Schedule B which is administered by the United States Census Bureau is used to track the amount of *trade* goods that are being exported from the U.S. The U.S. Census Bureau keeps records of the amount of exports by country, quantity, and dollar amount. The search criteria can be either by word search or chapter. The Schedule B Classification book and number can be found on the U.S. Census Bureau's website.

To illustrate, the attached Electronic Export Information (EEI) form required by AES is shown for the exportation of the following product(s): Polydefin, a Synthetic Resin.

Sensitive Information

Electronic Export Information

ITN: [REDACTED] 449

XTN: [REDACTED] 621

Status: Accepted

Filing Option: 2 - PREDEPARTURE
